

EASY POND Liquid Bacteria

A Natural Bacteria

Easy Pond Liquid Bacteria is a customized blend of select strains of bacteria specifically targeted for their water clarity and muck control capabilities. Eliminate turbidity and unsightly muck accumulation.

- **Digests duck and fish waste, plant material, odor causing nutrients and excess food**
- **Controls and reduces the volume of contaminates**
- **Keeps your water fresher and your pond environment sparkling**

Net Volume: 1 Gallon / 3.78 Liters

EASY POND™ Liquid Bacteria A Natural Bacteria

Application Rates:

Dosing is for 5,000 gallons of water.

Mix 1 - 2 cups* (8oz - 16oz) into 5 gallons of pond water and disperse into pond.

* Ponds with a heavy organic load may require heavier doses.

For Best Results:

Always dilute as directed. Disperse product evenly. Use with other Easy Pond Products as part of a weekly regimen.

How to Estimate Pond Size:

Measure Length (L), Width (W) and average Depth (D) in FEET.

Then multiply for:

Square shaped bodies of water:
 $L \times W \times D \times 7.5 =$ approximate gallons.

Circular or Elliptical bodies of water:
 $L \times W \times D \times 5.9 =$ approximate gallons.
