EASY POND™ Minerals

Naturally Fortified Minerals

Application Rates:

Dosing is for each 500 gallons of water.

Week 1: Mix 8 tbsp into 1 gallon of pond water and disperse into pond.

Week 2+: Mix 4 tbsp into 1 gallon of pond water and disperse into pond.

For Best Results:

Always dilute as directed. Disperse product evenly. Use with other Easy Pond Products as part of a weekly regimen.

How to Estimate Pond Size:

Measure Length (L), Width (W) and average Depth (D) in FEET.

Then multiply for:

Square shaped bodies of water:

$L \times W \times D \times 7.5 =$ approximate gallons.

Circular or Elliptical bodies of water:

$L \times W \times D \times 5.9 =$ approximate gallons.

Net Contents: 13 oz.
