SPECIMEN LABEL

51 MUCK REDUCING PELLETS SUPER CONCENTRATED

General Information: F-51 Muck Reducing Pellets is fortified with specialized bacterial strains that are high volume organic waste consumers. The pellet itself was specially designed to penetrate deep into the organic waste so the dose is not consumed in the water column.

Use F-51 Muck Reducing Pellets to:

- Eliminate Odor Causing Contaminants
- Effectively Manage Lake Bed
- Reduce Organic Waste in All Types of Water

Storage: Store in a dry, cool place. Keep out of direct sunlight.

Directions: 125 pounds of F-51 Muck Reducing Pellets will treat 1 surface acre (3 lbs treat 1,000 square feet). Broadcast F-51 Muck Reducing Pellets uniformly over water surface. Apply two (2) - six (6) times per year.

For Optimum Results:

Apply when temperature is 50-90 degrees F; Dissolved Oxygen Level is over 1.0 ppm; pH is 6-8; and Alkalinity is less than 100 ppm. Best if used within twelve (12) months of purchase.

Notice: Neither the manufacturer nor seller make any warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use of this material when such use is contrary to label instruction. Read and follow the label directions carefully.
